Download and Run Ad Aware 6.0

- Go to **www.download.com**
- In the search area type in   **ad aware** click on Go
- In the search results click on **Ad-Aware SE Personal Edition**
- At the next screen click on **Download Now**
- Where it then says "to open or save to your computer" click on Save
- Where is says "Save As" select the location as your desktop and click **save**
- That will put a Icon on your desktop **aawsepersonal.exe** double click on the icon
- Click **Next**
- Click **Next**
- Click **Next**
- Click **Next**
- Click **Finish**
- Now double click on the icon on the desktop that looks like a no smoking sign with a six in it.
- Click on **Check for updates now**
- Click **Connect**
- It says new reference file available click **OK**
- Click **Finish**
- Click **Start**
- Click **Next**
- Let the program scan your computer, it may take a little while
- Once completed you will see a blinking bug with the total number of files
- Click **Next** if the items are not already selected, check them all off

  - A Simple way to Check them all
    Right Click on one of them
    When the menu pops up
    Click on "Select All"

- Click **Next**
- Click **OK**
- Click on the **X** in the upper right hand corner
- And your PC is now spyware free… Congrats…
